§ 643.301 *General.* In order to carry out the over-all program of Commodity Credit Corporation (hereinafter referred to as CCC) to support the farm price of 1950-crop flaxseed at 60 percent of the parity price as of the beginning of the marketing year (April 1, 1950), CCC, through the PMA State Committee, PMA County Committees and authorized flaxseed dealers, will stand ready to make direct purchases from eligible producers, from the time of harvest through July 31, 1950, of 1950-crop Texas flaxseed grown in the counties listed in § 643.304. All such purchases shall be made in accordance with this bulletin.

An eligible producer desiring to sell flaxseed under this program must apply to the county committee of the county in which the flaxseed was produced for written delivery instructions on the quantity of flaxseed he wishes to sell to CCC.

Such application must be made sufficiently in advance of the date of the intended delivery to enable the county committee to schedule deliveries in an orderly manner. Delivery instructions issued by the county committee will set forth the approximate quantity of flaxseed and the time and place of delivery for the account of CCC. The county committee may authorize in writing certain employees of the county committee to approve on behalf of the committee any forms and documents in connection with this program.

Such designation may be revoked in writing by the PMA Commodity Office at any time.

§ 643.306 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation or other legal entity which (a) has produced the flaxseed in 1950 in one of the counties named in § 643.304 as landowner, landlord, tenant or sharecropper, and (b) has applied to the appropriate county office for delivery instructions.

(c) The flaxseed must grade No. 1 or No. 2. Flaxseed which contains more than 30 percent damage or more than 11 percent moisture, or which is musty, sour, heating, hot, or which has any commercially objectionable odor or which is otherwise of low quality is not eligible for purchase.

(d) Sample grade flaxseed will not be purchased under this program.

§ 643.308 *Authorized dealer.* An authorized dealer shall be any individual, partnership, association or corporation operating under a Flaxseed Dealer Agreement with CCC, which authorizes such dealer to accept delivery of flaxseed under this program for the account of CCC. The receipt shall indicate the percentage of moisture, the percentage of test weight, the gross weight of flaxseed in pounds, the percentage of dockage, the number of net pounds of clean seed and the grade of flaxseed at the time of delivery and such other information as is required on the receipt form.

§ 643.310 *Determination of quantity.*

(a) The number of bushels of flaxseed delivered shall be determined by weight at time of delivery. A bushel shall be 56 pounds of flaxseed free of dockage.

(b) The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States for Flaxseed, and the weight of said dockage shall be deducted from the gross weight of the flaxseed in determining the net quantity for purchase.

§ 643.311 *Liens.* The flaxseed must be free and clear of all liens and encumbrances, or, if liens and encumbrances exist on the flaxseed, proper waivers must be presented to the county committees at the time of application for delivery instructions.

§ 643.312 *Service charge.* A service charge of one-half cent per bushel or a minimum of \$1.50, whichever is greater, shall be charged the producer on each purchase of flaxseed made by CCC under this program. The amount of the service charge shall be deducted from the purchase price at the time of settlement.

§ 643.313 *Set-offs.* Any storage payment due the producer for storage of the commodity in farm storage structures on which CCC has made or guaranteed a storage facility loan to the producer, shall be applied to such storage facility loan until the same is fully repaid. Any amount of such storage payments not so applied and any other storage payments, together with all payments for related services, due the producer shall

be subject to set-off in the same manner as provided below for purchase proceeds.

If the producer is indebted to CCC on any accrued obligation, or if any installments past due or maturing within twelve months are unpaid on any loan made available by CCC on farm-storage facilities, whether held by CCC or a lending agency, he must designate CCC or such lending agency as the payee of the proceeds of the purchase to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges and amount due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

**§ 643.314 Payment.** Payment to the producer for flaxseed delivered under this program shall be made by the PMA State office through sight drafts drawn on CCC, and on the basis of the purchase documents indicated in § 643.309, subject to the provisions of set-offs and service charge.

Issued this 9th day of May 1950.

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[Amdt. 5]

#### PART 722—COTTON

##### ACREAGE ALLOTMENTS AND MARKETING QUOTAS FOR 1950 CROP

**Basis and purpose.** Section 722.119a (c) of the regulations provides that reapportionments of any unused released acreage allotments pursuant to section 344 (f) (4) of the Agricultural Adjustment Act of 1938, as amended, shall be made not later than May 10, 1950. The amendment set forth herein retains May 10, 1950, as the final date for the filing of applications for such unused released acreage allotment, but authorizes the

Assistant Administrator of the Production and Marketing Administration to extend the period during which the Production and Marketing Administration County Committees may complete the reapportionments of unused allotment to eligible farms.

In order that county Production and Marketing Administration committees may continue to reapportion unused released acreage allotment after May 10, 1950, and complete such reapportionments in time for the additional allotment to be planted by affected cotton farmers, it is necessary that the amendment set forth herein be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest, and the amendment contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.119a (c) of the regulations pertaining to acreage allotments and marketing quotas for the 1950 crop of cotton, as amended (14 F. R. 7441; 15 F. R. 277, 1326, 2020, 2055), is hereby changed to read as follows:

(c) **Apportionment of remaining acreage allotment.** If any released acreage allotments remain after providing the adjustment in allotments in accordance with paragraph (b) of this section, such acreage may be reapportioned on the basis of application filed by the farm operator not later than May 10, 1950, in accordance with the instructions issued by the Assistant Administrator, in amounts determined by the county committee to be fair and reasonable (1) to other farms in the same county receiving allotments which the county committee determines are inadequate and not representative in view of their past production of cotton and (2) to new cotton farms in such county.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets or applies secs. 301, 342-345, 347, 361-368, 373, 374, 52 Stat. 38, 43, 62-64, 65, as amended; 7 U. S. C. and Sup., 1301, 1342-1345, 1347, 1361-1368, 1373, 1374)

### Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 329, Amdt. 1]

#### PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### LIMITATION OF SHIPMENTS

**Findings.** 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Part 953;

14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

*Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 953.436 (Lemon Regulation 329, 15 F. R. 2665) are hereby amended to read as follows:

(ii) District 2: 550 carloads.

tice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on May 10, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(i) District 1: Unlimited movement;

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 329 (15 F. R. 2665), and made a part hereof by this reference.

(3) As used in this section, "handler," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

## PRIVATE AND FOREIGN FREIGHT FORWARDERS; REGISTRATION

Whereas, the Commissioner having published in the FEDERAL REGISTER issue of March 30, 1950 (15 F. R. 1796), a notice of proposed rules as hereinafter set forth, constituting an amendment to this Commission's General Order 70, as amended, published in the FEDERAL REGISTER issues of June 1, 1949, and June 9, 1949 (14 F. R. 2854, 3123); and

Whereas, the time and date provided in said notice for the submission to the Commission of written comments on the proposed rules having expired; and

Whereas, after careful consideration of the comments submitted, the Commission adopted the proposed amendment to its General Order 70 as set forth in the notice of proposed rule making referred to herein and published as aforesaid: Now therefore, it is hereby ordered, That:

Effective 12:01 a. m., e. s. t., June 1, 1950, §§ 243.2 (b), 243.2 (c) and 243.3 (a) (11) of Part 243 are amended to read as follows:

## § 243.2 Regulations. \* \* \*

(b) *Use of private freight forwarders.* The aforementioned agencies and persons shall use the services of private freight forwarders for the forwarding of such supplies in accordance with ordinary commercial practice, except where existing conditions make such use unreasonable or impracticable.

(c) *Foreign-owned forwarders.* Any person (as above defined) engaged in freight forwarding not a citizen of the United States within the definition of citizen of the United States contained in U. S. Code, Title 46, section 802, shall be designated as a "foreign-owned" freight forwarder. Foreign-owned freight forwarders shall not receive or collect brokerage or forwarding fees on cargoes shipped pursuant to the Foreign Assistance Act of 1948, or other relief and rehabilitation statutes, to any country receiving assistance under such statutes, aggregating in any period of

three successive calendar months a larger percentage of the forwarder's gross revenues received for forwarding services during such period than the percentage represented by the ratio between the forwarder's gross revenues from forwarding shipments to the same country and his gross revenues from forwarding to all countries received during the year ended March 31, 1948: *Provided, however,* That there may be substituted in lieu of and as an alternative for the aforementioned percentages, at the election of the foreign-owned forwarder and upon written notice to the Maritime Commission prior to the end of any such three month period, a dollar limitation on gross revenue from relief and rehabilitation cargo to any particular country for any three month period, representing one half the amount of gross revenue actually received from shipments of relief and rehabilitation cargo to such country under such statutes for the last six months of the calendar year 1949, but in no event less than \$500.00. Foreign-owned freight forwarders who, or whose predecessors, were established in the United States subsequent to September 3, 1939, shall not be permitted to service cargoes shipped under the Foreign Assistance Act of 1948, and other relief and rehabilitation statutes, and shall not receive brokerage or other forwarding fees for services to such cargoes.

*Example:* Between March 31, 1947, and March 31, 1948, a foreign-owned forwarder received \$1,000 in fees and brokerage on cargo forwarded to Belgium, and his gross revenues during the same period from all forwarding services was \$10,000. The ratio is 10%. He may not hereafter, during any three-month period, receive more than 10% of his gross income during such period on relief cargo forwarded to Belgium. However, if his gross income from relief cargo forwarded to Belgium during the six months ended December 31, 1949, aggregated \$7,200, then as an alternative to said 10% of his gross income, he may receive up to \$3,600 of gross income on relief cargo forwarded to Belgium during the three-month period.

## § 243.3 Registration. (a) \* \* \*

(11) If the answer to question 10 is in the negative, the forwarder shall furnish the Commission a statement of its total gross revenue from all forwarding services received during the period from March 31, 1947, to March 31, 1948, showing separately the gross revenue received from forwarding cargoes shipped during that period to each nation now receiving aid under the Foreign Assistance Act of 1948 and other relief and rehabilitation statutes. The foreign-owned forwarder shall also submit every three months a statement of its total gross revenue received during such three-month period from all forwarding services, showing separately (i) the gross revenue received from forwarding cargoes to each of the nations now receiving aid under the Foreign Assistance Act of 1948 and other relief and rehabilitation statutes; and (ii) as to each such nation, the amount of revenue derived from forwarding "commercial" or non-U. S. Government financed cargo and revenue derived from forwarding U. S. Government financed cargo. Such statements shall be furnished not later than the 15th day of

January, April, July and October for the preceding 3 calendar months.

FEBRUARY 23, 1950.

Pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), notice is hereby given of the proposed issuance by the Commissioner of Immigration and Naturalization, with the approval of the Attorney General, of the following amendatory regulations relating to the importation of skilled alien contract laborers. In accordance with subsection (b) of the said section 4, interested persons may submit to the Commissioner of Immigration and Naturalization, Room 1053, Temporary Federal Office Building X, Nineteenth and East Capitol Streets NE., Washington 25, D. C., written data, views or arguments relative to these proposed regulations. Such representations may not be presented orally in any manner. All relevant material received within 20 days following the day of publication of this notice will be considered.

Sections 124.4, 124.5, and 124.6 of Chapter I of Title 8 of the Code of Federal Regulations are hereby amended to read as follows:

§ 124.4 *Applications for importation of skilled laborers.* An application for permission to import otherwise admis-

sible skilled laborers in accordance with § 124.2 (1) shall be submitted by the prospective importer on Form I-129, in triplicate, to the officer in charge of the district in which the importer intends to employ such skilled laborers. The following-described documents shall be attached to, and made a part of, the application:

(a) Three copies of a clearance order bearing a statement, over the signature of the Director of the United States Employment Service, that (1) qualified workers of the kind proposed to be imported are not available within the United States, and (2) Employment Service policies have been observed;

(b) The original or a certified copy of a statement by the appropriate representative of any labor organization that may be active in the field of skilled labor in which the contract laborers are to be employed, showing (1) whether the labor organization is in a position to supply like skilled labor to the importer, and (2) whether the labor organization has any objection to the proposed importation of contract laborers, and if so, the nature of such objection; and

(c) The original or a certified copy of such other evidence as the importer may have showing his efforts to procure like skilled labor in the United States.

§ 124.5 *Action in field office on application.* (a) Upon receipt of an executed application, the officer in charge of the district shall examine it for completeness. If he considers it necessary, the officer in charge shall have an investigation conducted to determine whether the facts alleged in the application are

true. The applicant may be represented by counsel in such cases before the officer in charge of the district, or the Commissioner, or both, but all evidence shall be submitted to the officer in charge of the district.

(b) The officer in charge of the district shall forward the original and one copy of the application, two copies of the clearance order, the other attachments specified in § 124.4, and any related report of investigation, together with his report and recommendation, to the Commissioner for his consideration in determining whether the application should be approved or disapproved.

§ 124.6 *Action in Central Office on application.* Before making a decision upon the application, the Commissioner shall have received, in addition to the statement contained in the clearance order required by § 124.4 (a), a certification from the Director of the United States Employment Service concerning the availability of qualified workers within the United States of the kind proposed to be imported. When he has reached a decision upon the application, the Commissioner shall notify the appropriate officer in charge of the district with respect thereto, and such officer shall, in turn, similarly notify the importer. If the application is approved, the importer shall be instructed to furnish all personal data called for by application Form I-129, unless previously furnished, directly to the Visa Division, Department of State, Washington, D. C., and to furnish the officer in charge of the district two copies of each of such communications as he may send in this connection to the Visa Division.

sion. The officer in charge of the district shall forward one copy of each of such communications to the Commissioner. The importer shall inform the appropriate officer in charge of the district as to the means by which the contract laborers are being transported to this country, approximate date of their arrival, and the port of arrival as soon as such information is received by the importer. The officer in charge of the district shall arrange for the importer to furnish bond, if required, and shall notify the immigration official in charge at the port of arrival with respect to the decision of the Commissioner, the date of the expected arrival of the contract laborers, and the bond, if any, furnished by the importer. The official in charge of the port shall admit such contract laborers if they are found admissible under all other applicable provisions of the immigration laws and regulations.

The Packers and Stockyards Act provides for a specified time after the posting of notice at the stockyards for market agencies, dealers and stockyard owners to register and qualify for the operation of their businesses under that act and makes the stockyard subject to the provisions of that act after the posting of notice at the stockyard. There appears to be no good reason to defer the effective date of the foregoing notice in view of that fact. Therefore, it is determined that good cause exists to make this

notice, and it shall be, effective upon publication in the FEDERAL REGISTER, subject to the provisions of the Packers and Stockyards Act.

## CIVIL AERONAUTICS BOARD

[Regs., Serial No. SR-345]

PAN AMERICAN WORLD AIRWAYS, INC.

### FLIGHT TIME LIMITATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 10th day of May 1950.

Pan American World Airways, Inc. (PAA) has filed a request for authority to deviate from the provisions of paragraphs (a), (b), and (c) of § 41.54 of the Civil Air Regulations for its route between Miami, Florida, and Belem, Brazil, with intermediate stops at San Juan, Puerto Rico, and Fort au Spain, Trinidad. These regulations, establishing flight time limitations for aircraft having a crew of one or two pilots, provide that a pilot may be scheduled to fly

8 hours or less during any 24 consecutive hours without a rest period; that if he is scheduled to fly in excess of 8 hours during any 24 consecutive hours, he must be given an intervening rest period at or before the termination of 8 scheduled hours of flight duty; that such rest period must equal at least twice the number of hours flown since the last preceding rest period and in no case will such rest period be less than 8 hours; that when a pilot has flown in excess of 8 hours during any 24 consecutive hours he must receive at least 18 hours of rest before being assigned any duty with the air carrier; and that a pilot shall not fly in excess of 32 hours during any 7 consecutive days.

PAA has established 14 flight schedules for the Miami-Belem route which permit compliance with the flight time limitations prescribed in paragraphs (a), (b), and (c) of § 41.54. These schedules require pilots based at Miami to lay over on certain trips at San Juan, Puerto Rico, Port au Spain, Trinidad, and Belem, Brazil. Depending upon the particular trip, the individual layover periods at the various points range from 10:54 to 54:59 hours, and a pilot flying a round trip is required to lay over as much as 164:09 hours. The flight time on a round trip between Miami and Belem only aggregates 33:18 hours, and the total time away from Miami on such a trip approximates 9 days. PAA also points out that this method of scheduling the crews requires a pilot to be absent from his home base, Miami, Florida, for approximately 28 days during an average month of duty. PAA claims that these long layovers and the amount of time the pilots are away from their families have lowered the morale of the pilots.

PAA asserts that if, with respect to this route, it were authorized to eliminate the Port au Spain layover and to permit pilots to fly in excess of 8 hours but generally not more than 10½ hours in any 24 consecutive hours, to have a rest period slightly less than that currently required, and to fly slightly more than 32 hours in any 7 consecutive days, the round trip could be made in less than 6 days, the pilots would have approximately one-half of each month at their home base, Miami, Florida, the morale of the pilots would be appreciably increased, and no undue pilot fatigue would result so as to unduly lower the level of passenger safety established by the current flight time limitations.

In developing this proposed pattern PAA states that it considered the following factors: The majority of the trips are operated during daylight hours; the rest periods would be at night, the habitual rest period; and these trips are flown "well over 90 percent of the time" under VFR conditions, and without terrain and airway traffic problems.

We believe that extended layovers away from a pilot's home base, especially in a tropical climate, may be detrimental to the mental well-being and health of the pilots and may result in a lowering of the morale of the pilots. Moreover, the Board finds that safety will not be adversely affected if pilots are permitted to exceed for relatively short

periods of time the flight time limitations specified in paragraphs (a), (b), and (c) of § 41.54.

It will be noted that the Board has had under consideration for some time the revision of all flight time limitations, and as part of that proposal has contemplated authorizing the Administrator to permit deviations from the limitations prescribed where he finds that such deviations will provide more healthful and advantageous rest periods for the pilot. The granting of this request will permit the Board to examine at first hand an operation conducted under a set of limitations tailored to a particular situation, and it will furnish the Board with information needed to assist it in the development of better and more realistic flight time limitations. Because the Board is now contemplating a revision of the current limitations, the Board considers it advisable to limit any authorization herein granted to a period no longer than 6 months, subject, of course, to renewal or revocation depending upon the results of this trial operation.

This regulation will permit the Administrator, for a period of 6 months, to authorize PAA and the pilots engaging in flight operations between Miami, Florida, and Belem, Brazil, with intermediate stops at San Juan, Puerto Rico, and Port au Spain, Trinidad, to deviate from the flight time limitations prescribed in paragraphs (a), (b), and (c) of § 41.54 if he finds that different limitations will not result in undue pilot fatigue and will permit flights between the aforementioned points to be scheduled to provide more healthful and advantageous rest periods for the pilots.

It will be noted that all persons interested in PAA's request, namely, the pilots engaging in operations over the Miami-Belem route and the Air Line Pilots Association, have submitted their comments regarding this request, and that PAA has requested that this rule be made effective immediately. Due consideration has been given to all of these comments.

For the reasons stated above, notice and public procedure hereon are unnecessary, and the Board finds that good cause exists for making this Special Civil Air Regulation effective on less than 30 days' notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates a Special Civil Air Regulation, effective immediately, to read as follows:

1. In lieu of the provisions of paragraphs (a), (b), and (c) of § 41.54 of the Civil Air Regulations the Administrator is authorized to establish flight time limitations for the Pan American World Airways, Inc., route between Miami, Florida, and Belem, Brazil, with intermediate stops at San Juan, Puerto Rico, and Port au Spain, Trinidad, if he finds that flight time limitations other than those specified in paragraphs (a), (b), and (c) of § 41.54 will not result in undue pilot fatigue and will permit flights on this route to be scheduled to provide more healthful and advantageous rest periods for the pilots than would result from a literal application of the limitations prescribed in those paragraphs.

2. Pan American World Airways, Inc., and the pilots employed by Pan American World Airways, Inc., who engage in flight operations on the Miami-Belem route are authorized, for a period of 6 months, to operate over that route in accordance with the flight time limitations prescribed by the Administrator pursuant to the authority granted in paragraph 1, such period to begin on the first date operations are inaugurated in accordance with such prescribed limitations.

3. Pan American World Airways, Inc., prior to commencing operations in accordance with flight time limitations approved by the Administrator, shall notify the Board in writing of the date on which service based upon the flight time limitations established pursuant to paragraph 1 is to be inaugurated.

This regulation shall terminate July 1, 1951, unless sooner superseded or rescinded.

## FEDERAL POWER COMMISSION

[Docket No. G-1319]

## ALGONQUIN GAS TRANSMISSION CO.

## NOTICE OF AMENDED APPLICATION

MAY 8, 1950.

Take notice that Algonquin Gas Transmission Company (Applicant), a Delaware corporation, having its principal place of business at Boston, Massachusetts, on May 1, 1950, filed an amendment to its application for a certificate of public convenience and necessity filed January 24, 1950.

Applicant proposes to procure its entire supply of natural gas from Texas Eastern Transmission Corporation (Texas Eastern) at or near Lambertville, New Jersey. Applicant proposes to construct and operate approximately 254 miles of main 26- and 24-inch pipe line extending from the point of connection with the pipe line of Texas Eastern to a point in the vicinity of Boston, Massachusetts; and approximately 364 miles of lateral lines, ranging from 3½- to 26-inch in diameter, extending adjacent and beyond the main pipe line, having an initial delivery capacity of approximately 260,000 Mcf per day, which is believed will be available for service prior to December 31, 1951. Estimates of needs of natural gas in the area presently proposed to be served in the States of New Jersey, Connecticut, Massachusetts, and Rhode Island have been de-

termined from responses from 31 distribution companies listed in Exhibit No. 1 attached to the amended application. Applicant expresses a willingness to undertake to serve the entire New England area to the extent that it shall be economically feasible to do so.

Applicant also proposes to construct and operate one 6,000 horsepower compressor station together with suitable metering and regulating stations as well as such other facilities as Applicant may deem necessary in order to enable it to render the service proposed.

Applicant states that no sales or interchange of natural service with other natural-gas companies is now proposed with the exception of the purchase of natural gas by Applicant from Texas Eastern.

The estimated over-all capital cost of the proposed facilities is \$33,217,090 which will be financed by sale of debt securities and common stock. Applicant states it has been advised that a program involving the issuance of twenty-year first mortgage bonds to raise seventy-five percent of the funds required, with the remaining twenty-five percent to be obtained through the sale of common stock, is a feasible and practicable method of financing the proposed project. Applicant further states that 75% of the common stock will be owned by New England gas distributing interests and 25% of the common stock is now owned by Texas Eastern.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 26th day of May 1950. The amended application is on file with the Commission for public inspection.

## SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-111, 59-12]

AMERICAN & FOREIGN POWER CO., INC.,  
ET AL.

NOTICE OF FILING OF APPLICATION FOR  
EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 9th day of May A. D. 1950.

In the matter of American & Foreign Power Company, Inc., Electric Bond and Share Company, File No. 54-111; Electric Bond and Share Company, American & Foreign Power Company, Inc. et al., respondents, File No. 59-12.

The Commission having on May 2, 1949, entered its order pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 (Holding Company Act Release No. 9044), directing Electric Bond and Share Company ("Bond and Share") and its subsidiary American & Foreign Power Company, Inc. ("Foreign Power") to take appropriate steps to reorganize Foreign Power on a basis on which Foreign Power will have outstanding only a single class of stock, namely common stock, and such amount of debt securities as will under the circumstances then existing meet the standards of the act;

Notice is hereby given that Bond and Share and Foreign Power have filed a joint application pursuant to section 11 (c) of the act requesting that the time for compliance with said order of the Commission dated May 2, 1949, be extended for a period of one year or such other period as the Commission may deem proper.

The application recites that subsequent to the Commission's order of May 2, 1949, Foreign Power and Bond and Share directed their efforts during the remainder of the year toward what they considered necessary preliminaries to the reorganization of Foreign Power, namely the reorganization of Cuban Electric Company, a subsidiary of Foreign Power, and the financing of the capital needs of Foreign Power's subsidiaries. In accordance with applications approved by the Commission (Holding Company Act Release No. 9589), Bond and Share's holdings of Cuban Debentures were transferred to Foreign Power in exchange for a new note of Foreign Power subject to certain conditions and Foreign Power obtained a loan of \$10,000,000 from a group of banks with an additional stand-by credit of \$5,000,000 available to July 1, 1951. Subsequently, the reorganization of Cuban Electric Company was substantially completed.

The application further states that Foreign Power is now engaged in the preparation of a new plan which it hopes to file in the near future. In this connection Foreign Power states that it furnished to the participants in the proceedings and to others interested in the reorganization of the company, a set of papers containing financial data of the company and its subsidiaries for the past

ten years and a forecast for the year 1950. Such data was supplied for the purpose of obtaining suggestions from such persons as to the appropriate terms and conditions to be contained in a plan of reorganization and, if possible, to obtain substantial agreement thereon. The company states that to date many suggestions have been received but that it has not as yet been able to formulate a satisfactory plan. Accordingly, the company has requested the extension of time.

All interested persons are referred to said application, which is on file in the offices of this Commission, for further details concerning said application.

Notice is further given that any interested person may, not later than May 22, 1950, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for his request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such application, as filed or as amended, may be granted by the Commission.

By the Commission.

At any time after May 25, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and

regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the offices of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Declarant proposes to issue and sell for cash at principal amount to four commercial banks an aggregate of \$3,800,000 principal amount of unsecured notes which will bear interest at the rate of 2½ percent per annum and will mature on December 15, 1950. The proceeds of the sale of the notes are to be used to repay all of the company's presently outstanding bank loans in the face amount of \$3,800,000 which bear interest at 2½ percent per annum and mature May 31, 1950.

The declaration states that pursuant to section 11 (e) of the act this Commission has approved a plan for the consolidation of it with Long Island Lighting Company and the latter's subsidiary company, Queens Borough Gas and Electric Company, and that upon consummation of the proposed consolidation the interest rate on the notes will become 2¼ percent for the remainder of the term. The plan has also been approved and directed to be consummated as soon as practicable by the United States District Court for the Eastern District of New York. Appeals from that approval have been taken to the United States Court of Appeals for the Second Circuit. That court has heard argument and has taken the matter under advisement.

Declarant states that the transaction is not subject to the jurisdiction of any regulatory body other than this Commission.

By the Commission.

Secretary.
